المستثمر الوطني The National Investor <u>Focus:</u> Although the fund may participate in markets throughout the Gulf Cooperative Countries ('GCC'), its investments will be primarily focused on publicly traded equities of UAE, which present a steady and recurrent track record of earnings growth and have a potential for capital appreciation.

<u>Management Style:</u> The key investment criteria are the company's financial strengths, competitiveness, profitability, growth prospects and quality of management. The allocation will be based on fundamental research and will incorporate a blend of top-down and a bottom-up analytical approach.

<u>**Objective:**</u> The fund aims to provide long-term capital appreciation through investing in equity securities publicly traded, primarily in the UAE, and, to a much lesser extent, in other GCC markets.

<u>Suitability:</u> Units of the Fund are speculative and involve a high degree of risk. The Fund is therefore designed for sophisticated investors who are able to understand the risks involved in emerging markets' equity investments, particularly in the UAE equities.
